# Top 10 most inspiring offices in Malaysia

Here's a personal tribute to a selection of "wow" workspaces of which I have had the privilege to visit. Kudos to the talented architects, interior and landscape designers who made them happen.

## Tujuan Gemilang office, Kuala Lumpur

**6** TUJUAN GEMILANG's office at the PJ Trade Centre in Damansara Perdana, Petaling Jaya, has all the hallmarks of a green office complete with an outside edge forming a private garden of about 700sq ft with trees that soothe the soul. "The inspiring thing about our office is the strong connection to nature. The private garden faces east.

"And, the west side faces the courtyard of the building, where we see the tops of hundreds of forest trees, and the occasional bird and butterfly. The sales display is at the front while the conference room is right in the heart of the office with a built-up of 5,750sq ft," said Tujuan Gemilang executive director Peter Chan.
